WILL SHOOT "EARTH'S LAST MOVIE" FILM CREW DESCENDS ON X-DAY LAUNCH SITE

FACE-LIFT FOR FAMILIAR H'WOOD LANDMARK

What th--? HERE'S something that's making Hollywood "Hipster" types do a classic "double-take" these days. In the publicity storm surrounding the all-new SubGenius motion picture, Pipeman (working title), now being lensed in flyover territory for ConFilm, the old sign's been given a new look, said Mr. Johnnie Grafft, "the Midget Vice-Mayor of Hollywood," at the ceremony. (SG)

Scientists: Wisteria is "Buggy" This Year

Bio-Hot spot - WISTERIA, the SubGenius annual gathering place deep within semi-tropical Southern Ohio, is one of the most fecund biological areas on Earth, experts contend. After record rains, invertebrates, like

the "Wisteria Chigger," shown above, should be... abundantly present. If you're going, then expect lots of "company!"

Filmmakers Say, "If Being Filmed, Just Act Naturally!"

Tip From THE PROS- When approached by a film crew member from the "SubGenius Movie," talk to her naturally, according to the movie people. For best results, pretend the camera simply isn't there. And have a "normal, everyday conversation." Above all, keep in mind the first and foremost rule... Don't look at the camera! (SG)

Filming X-DAY developments as they take place, Tinseltown's wizards hope to spin SubGenius straw into box-office gold. "That's Hollywood," as they say!

MEGA- PRODUCTION WILL BE IN FULL 8-D AND RUMBLE-RAMA

SallackNews (SG)-

Future classic - CINEMA HISTORY could be made soon - but not in the swank studios of jaded Hollywood. Not this time.

Instead, the calls of "Action! Speed!" and "Roll Sound!" will echo among the walnut trees and scrub pines of the Southern Ohio landscape. For a brand-new, major motion picture, made with all the very latest techniques and technical processes - Regiscope,

Emergo, Dynarama and Astravision - will start shooting there. No, not since the days of legendary Producer-Director Bert I. Gordon will anything like this have reached the screen.

SubGenius Radio Goddesses Plan Connie-ite Insurrection

SallackNews (SG)- THE "OLD BOYS' CLUB" in the Church of the SubGenius has had its day, according to one prominent Uber-Femme, but there's a solution at hand. "It's so easy - just a simple surgical operation puts an end to their antics right away. All it takes is one little snip! And then," she (Continued page 14-A)

But "mind-breaking special effects" are just a small part of what to expect. Indeed, the standard "hocus-focus" and other expert tricks in the movie-maker's arsenal will surely pale into insignificance, against the fire and the thunder of the X-ists' Arrival and subsequent Apocalypse.

That Day of Arrival, July 5th at 700 hours, or Seven O' Clock in the morning CST, is not likely to be altered by backroom deals, or by offers of percentage points.

Meanwhile, with Jim Belushi now signed to play Philo Drummond, Anthony Hopkins in the role of Jehovah One, Paul Reubens as Dr. Legume, and the still-controversial casting of Dwayne "The Rock" Johnson as J.R. "Bob" (Continued page 2-A)

The Arts

"KALLIOPE" MUSIC TO BE HEARD AT X-DAY

SallackNews (SG)- Vivacious Virtuoso - COMELY Chordist The Right Reverend Doktor Mother Miller, pictured at right, will play at the Apocalyptic SubGenius rally on the steam-powered organ, or Calliope. Experts are now predicting that the restless and potentially unstable crowd may respond to the effect of soothing strains of music, even as the "Countdown to Doom" ticks ever closer.

“SCHEDULE”

The greatness that is X-Day lies not in what is planned but what is NOT planned. Anyone can be a participant and performer. It's just that if you're really bad, you might be punished in some way. Every tent is a potential orgy, every square inch of dirt a stage. The experienced preachers may be hogging the stage and “live radio” facilities most of the time, but don't hesitate to ask if you can sit in.

Registration/Sales: Cafe, Noon (or so) to 5 (or so) every day

All Day: 24/7 Grindhouse movies at Location TBA

Thursday: stage prep; live show at cafe then the big stage

Friday: too hot/wet (stay at cafe, bring chargers)

Saturday: Forget what day it is, totally revise schedule; stay up all night, upset everyone

Sunday: Ask Dr. Hal, Bulldada Auction, Jams n' rants, Andrew the Impaled, Circus Apocalypse, “Bob” Burning

Monday: Bobtism in Pond 2 pm; Costume Or Not Party and feast 4 pm, more Bulldada Auction, noise on stage(s)

Tuesday: Recuperate from Monday, Slacking, ranting, jamming, last-minute conversions

July 5: 7:00 A.M. at Stone Circle: The Rupture; World Ends

If your band wants to play or your mouth wants to rant, say so, then do it!

REGISTRATION: CHECK-IN

If you're reading this, which no one actually does, you probably already know that after paying your Wisteria camping fees you must check in with SubGenius Foundation representatives and receive the Electro-Stimulo Negative Reinforcement Bracelet.

IMPORTANT — Johnny Law

If it's illegal in the Conspiracy's world, it's still illegal here. Underage drinking, false drugs, and especially assassination are not permitted. Wisteria has its own security. If you do need help, you should find a Wisteria staff member or a SubGenius Hierarchite, easily summoned from the office trailers in the center of Wisteria.

The state police may drive through Wisteria, and if you see them patrolling, DO NOT FLIP OUT. They are probably just looking to buy “Bob” t-shirts. If you don't prance around in front of them inanelly being illegal, they will show you the same respect.

FIREWORKS ARE ILLEGAL IN OHIO.

RANTERS/BANDS

This schedule is nonexistent. If you want to perform on stage in some manner, tell Rev. Stang when he's not in the middle of recording a show. We'll have some kind of sign-in sheet or ever-changing upcoming events board. However what many SubGeniuses remember most fondly from X-Day Drills is standing in the road talking.

*NHGH.”BOB” above by NENSLO

NAKEDITY

Wisteria is a clothing optional campground, although you can't run around naked up by the highway. Most nice looking young people seem to remain clothed. However, you may see the occasional senior going “skylad.” Try not to laugh. This is their ethnic cultural custom. Unlike in many national parks, however, you *are* allowed to feed the naked seniors.

VIDEO/AUDIO

If you do NOT want your image to be used in X-Day promotional documentaries, you must inform Rev. Stang or SubGenius Authorities, and also you should lurk unobtrusively in the background. Otherwise it will be assumed that you won't mind being seen online or in an X-Day documentary. Likewise, you do not need our permission to photograph or videotape an event, but you should exercise common courtesy and make sure the person you're photographing doesn't object. We reserve the right to destroy the equipment and confiscate the recordings of dipshit mediographers who irritate the staff, performers or audience. That holds true for any type of dipshit. We'll confiscate your presence.

TRASH

We want the Earth to be pristine when we destroy it. Also, we love to make the pagans look like litterbugs by comparison. *Please* don't leave cans, bottles, cig butts or 'Frop sticks around. Trash and recycling bins are everywhere, and dumpsters are near the Wisteria entrance. Please carry your trash out. We know that the Earth will soon be one gigantic flaming oilslick, but in the meantime we beg your indulgence. **BUILD AND SWAB YOUR OWN SHIP.**

BULLDADA AUCTION

Bring your Bulldada to sell off in the name of the Church! And be ready to spend money. One SubGenius's hateful unwanted crap is another SubGenius' beloved belabored postmodernist inadvertent camp masterpiece.

NOISE

Many of us are up practically all night, being noisy. If you can't sleep with loud music or drumming going on nearby, you should take SPECIAL CARE to camp far from others. Wisteria has many private, distant, quiet campsites. If you camp close to other camps, DON'T GIVE THEM GRIEF for partying all night long. That's what X-Day at Wisteria is for. The noise isn't their problem, but yours. Move to another spot further in the woods. It's much cooler there too.

WARNING:

All employees of the US Government must present identification to registrar before entering these grounds. All electronic recording devices and weapons must be presented for inspection prior to entry.

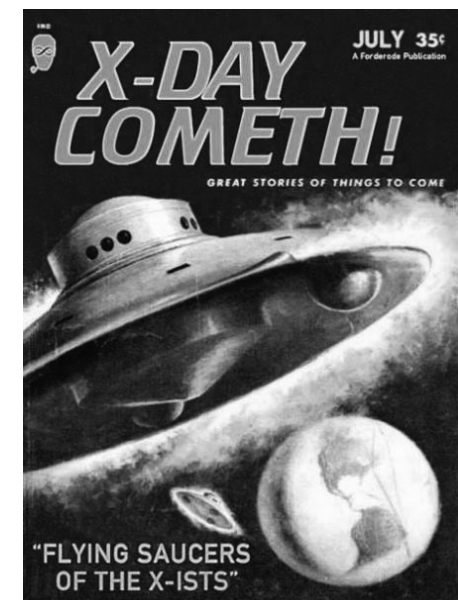

US CODE TITLE 303, SECTION 1998-JY5 DHS REGULATION 13013-X

EMERGENCY FIRST AID

Please attempt to handle any minor injuries yourself, but if you feel you need a professional, don't hesitate to ask at Wisteria main office (or any SubGenius Hierarchite carrying a walkie-talkie or a BIG STICK (used for acubeating or transferral of pain)).

Dr. Hal Robbins

Helpful Hints:

We can take credit cards for registration and sales, but we prefer cash. There is an ATM at Wisteria. Wisteria has a nice cafe, a small general store, drinking water, cell phone recharging stations, compost

buckets for food scraps, wastewater barrels (for after dishwashing), WiFi, a pay phone for outgoing or collect calls (cell phone reception may be iffy), MANY porta-potties, a new shower house with private stalls, and they sell firewood. (Do NOT bring firewood from outside due to invasive bugs.) Use the many communal fire pits; don't dig your own. Bring a campstove if you want to cook. Pets are NOT allowed. Wisteria may provide a hand-out with additional rules and suggestions. It is a huge area with many gorgeous hiking trails. We suggest Athens for shops, laundry, restaurants, motels, etc.; it's only 18 miles away and very nice. Pomeroy is closer but smaller.
