U.S. BRACES FOR INVASION BY ALIEN SAUCER FLEET JULY 5TH

AMERICANS SAY, "WE'RE READY FOR 'EM!"

Weird Visitor-SUDDEN SHOCK as Spudville resident confronts amorous extraterrestrial. "It sure knew how to find my G-Spot," she reported. (See R.)

More Space Monster Outrages

SallackNews (SG)- An unwanted and "loathsome" sexual encounter between a Spudville, Iowa woman and what she described as a "rubbery, multiply-endowed blob," was reported Friday. "It just barged in," said Ms. Justine La Poitrine, 31, a widow and former Miss Spudville (2007). "and before I could even turn around, we were 'doing it' like anything." After foot-rubs and baths, the creature then "seeded" her, with (See, "It's Quintuplets!" A-20)

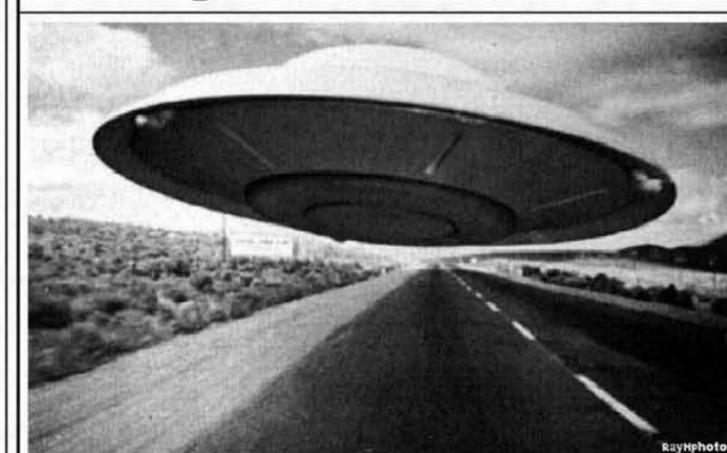

Pert Protector-SUZEE PINKSTER, 17, FIRES off her "fave" rifle, "Justin," showing how she'll defend her own hometown of Forger's Tremor, Ohio, when "icky" Aliens land.

Armed Populace Vows Death For Space Visitors

SallackNews (SG)- A little more than one month ago, very few people- only specialists- had any interest in the variable star, thought to be a Neutron Star, in the constellation of Ophiuchus, the Serpent-Bearer. Even the announcement that the odd view of UCAC3 196-167073, the star in question, resulted from the intermittent blocking of star UCAC3 196-167073's light by "a great number of objects coming right at us," made little difference to the public. But then came the pictures. With space-based and Very Large Array Deep Space images of the Xist Armada, indifference has quickly turned to widely spread concern- and panic. The Day of Arrival, July 5th at 700 hours, or Seven O' Clock in the morning CST, is not giving armed Citizens' Militias time to train their members adequately for combat. Prepared or not, however, thousands of newly-formed home-grown vigilante groups plan to meet the aliens with deadly force. An epidemic of accidental shootings, the result of pre-X-Day tension, is adding to the chaos, despite repeated pleas from civil and military authorities to preserve order and remain calm. At a NASCAR rally Tuesday in Lynchburg, VA, an impromptu display of firepower was the accidental cause of tragedy. Automatic weapons, fired in anticipation of encounters with the "Space Weirdos," claimed three lives, two minor children and a 104-year-old woman. Caught in the crossfire were 11-year-old Billy Brown, 10-year-old Thad "Timmy" Pibber and the boys' guardian, "Aunt" Bertha T. Shooks. The search for weapons to use against the aliens has prompted widespread debate over what size of ordnance will be needed, particularly if the invaders may be, as some have claimed, of enormous dimensions. "You're gonna need your basic shoulder-mounted rocket launcher, your grenade launcher, your plasma pulse rifle to start with, along with your AK-47," says "Jed" Turnipseed, 42. "Trouble is, your alien type space monsters got ray guns, all kinds of death ray s...t, plus, they're octopuses, right? - so they're kind of hard to kill." The diameter of a bulbous, bloated sac, writhing and (Continued on page 2-A)

"Friendly" Advance Scout Saucers Terrify Motorists, Cause Fatalities

Flying Fiascos- SAUCER JOCKEYS buzz-bomb drivers without warning, hovering and darting. Experts are predicting far more disruption, not less, after the actual X-Day begins on July 5th. (See, "Stang Defies Washington Summons," A-2) [Harryhausenphoto]

SallackNews (SG)- As the oncoming Saucer Fleet enters the Solar System, outriders are being reported. Accidents on freeways from sudden and unexpected Saucer encounters happened Thursday night and during the weekend in four Western states. On Interstate Highway 10 near El Cajon, California, a semi-trailer Vin Diesel truck, with a full load of rutabagas, swerved across four lanes of traffic and struck a power substation at 4:30 AM, said Highway Patrolman Hankston "Axehandle" Grossuan. The truck's driver, Viktor "Buck" Cantu-Casey-Eddings Hypercleats, told Patrolman Grossuan that "Uppity Aliens" had been "mooning" him from their hovering craft. "Then they pulled down my (Continued on page 14-A)

“SCHEDULE”

The greatness that is X-Day lies not in what is planned but what is NOT planned. Anyone can be a participant and performer. It's just that if you're really bad, you might be punished in some way. Every tent is a potential orgy, every square inch of dirt a stage. The experienced preachers may be hogging the stage and “live radio” facilities most of the time, but don't hesitate to ask if you can sit in.

Registration/Sales: Cafe, Noon (or so) to 5 (or so) every day
All Day: 24/7 Grindhouse movies at Green Man Tavern

- Day 1: Show up**
- Day 2: live show at cafe then the stage**
- Day 3: live show at cafe then the stage**
- Day 4: too hot/wet (stay at cafe, bring chargers)**
- Day 5: stay up all night, upset everyone**
- Saturday: Bobtism in Pond 2 pm; Costume Or Not Party and feast 4 pm, noise on stage, The “Bob” Burning?!**
- Sunday: Ask Dr. Hal, main Bulldada Auction, Bobbie Awards, live show at cafe then the stage**
- Day ? : Forget what day it is, totally revise schedule; stay up all night, upset everyone**
- July 5: 7:00 A.M. at Stone Circle: The Rupture; World Ends**

If your band wants to play or your mouth wants to rant, say so!

REGISTRATION: CHECK-IN

If you're reading this, which no one actually does, you probably already know that after paying your Wisteria camping fees you must check in with SubGenius Foundation representatives and receive the Electro-Stimulo Negative Reinforcement Bracelet.

IMPORTANT — Johnny Law

If it's illegal in the Conspiracy's world, it's still illegal here. Underage drinking, false drugs, and especially assassination are not permitted. Wisteria has its own security. If you do need help, you should find a Wisteria staff member or a SubGenius Hierarchite, easily summoned from the office trailers in the center of Wisteria.

The state police may drive through Wisteria, and if you see them patrolling, DO NOT FLIP OUT. They are probably just looking to buy “Bob” t-shirts. If you don't prance around in front of them inanelly being illegal, they will show you the same respect.

FIREWORKS ARE ILLEGAL IN OHIO.

EMERGENCY FIRST AID

Please attempt to handle any minor injuries yourself, but if you feel you need a professional, don't hesitate to ask at Wisteria main office (or any SubGenius Hierarchite carrying a walkie-talkie or a BIG STICK (used for acubeating or transferral of pain)).

RANTERS/BANDS

This schedule is nonexistent. If you want to perform on stage in some manner, tell Rev. Stang when he's not in the middle of recording a show. We'll have some kind of sign-in sheet or ever-changing upcoming events board. However what many SubGeniuses remember most fondly from X-Day Drills is standing in the road talking.

NAKEDITY

Wisteria is a clothing optional campground, although you can't run around naked up by the highway. Most nice looking young people seem to remain clothed. However, you may see the occasional senior going “skylad.” Try not to laugh. This is their ethnic cultural custom. Unlike in many national parks, however, you *are* allowed to feed the naked seniors.

VIDEO/AUDIO

If you do NOT want your image to be used in X-Day promotional documentaries, you must inform Rev. Stang or SubGenius Authorities, and also you should lurk unobtrusively in the background. Otherwise it will be assumed that you won't mind being seen online or in an X-Day documentary. Likewise, you do not need our permission to photograph or videotape an event, but you should exercise common courtesy and make sure the person you're photographing doesn't object. We reserve the right to destroy the equipment and confiscate the recordings of dipshit mediographers who irritate the staff, performers or audience. That holds true for any type of dipshit. We'll confiscate your presence.

TRASH

We want the Earth to be pristine when we destroy it. Also, we love to make the pagans look like litterbugs by comparison. *Please* don't leave cans, bottles, cig butts or 'Frop sticks around. Trash and recycling bins are everywhere, and dumpsters are near the Wisteria entrance. Please carry your trash out. We know that the Earth will soon be one gigantic flaming oilslick, but in the meantime we beg your indulgence. **BUILD AND SWAB YOUR OWN SHIP.**

BULLDADA AUCTION

Bring your Bulldada to sell off in the name of the Church! And be ready to spend money. One SubGenius's hateful unwanted crap is another SubGenius' beloved belabored postmodernist inadvertent camp masterpiece.

Dr. Hal Robbins

NOISE

Many of us are up practically all night, being noisy. If you can't sleep with loud music or drumming going on nearby, you should take SPECIAL CARE to camp far from others. Wisteria has many private, distant, quiet campsites. If you camp close to other camps, DON'T GIVE THEM GRIEF for partying all night long. That's what X-Day at Wisteria is for. The noise isn't their problem, but yours. Move to another spot further in the woods. It's much cooler there too.

Dr. Hal Robbins

WHY... a SubGenius WAR on GOD?

AS IF we SubGeniuses didn't have enough on our plates! But, yes! That is indeed one — just one — of our projects, now that the End Times are under way. Sure, old Jehovah I was, in His “day” — seems upon seems ago — the most singular Entity in the Plenum, when the Sons of Morning sang, etc., etc. Back then. And, He began the Experiments that created the “Humans.” We acknowledge that. But, face it, folks — He was old even then! And now, frankly, He's *senile* — and *dangerous*. He threatens our SubGenius Mission to create Universes of Slack. By the way, which side are *you* on? Don't you know *this planet's had it*? There's just enough time left to send us \$35 — right away!

THE SUBGENIUS FOUNDATION

Peace of Mind for \$35.

Send for “money-making” booklet — go to subgenius.com

Liftoff is July 5th

Helpful Hints:

We can take credit cards for registration and sales, but we prefer cash. There is an ATM at Wisteria. Wisteria has a nice cafe, a small general store, drinking water, cell phone recharging stations, compost buckets for food scraps, wastewater barrels (for after dishwashing), WiFi, a pay phone for outgoing or collect calls (cell phone reception may be iffy), MANY porta-potties, a new shower house with private stalls, and they sell firewood. (Do NOT bring firewood from outside due to invasive bugs.) Use the many communal fire pits; don't dig your own. Bring a campstove if you want to cook. Pets are NOT allowed. Wisteria may provide a hand-out with additional rules and suggestions. It is a huge area with many gorgeous hiking trails. We suggest Athens for shops, laundry, restaurants, motels, etc.; it's only 18 miles away and very nice. Pomeroy is... small.
